EV VERTICAL MULTISTAGE PUMPS NOW AVAILABLE ON

FRANKLIN ELECTRIC PUMP SELECTOR

The complete range of EV Vertical Multistage pumps 50 Hz up to 115 m³/h can now also be selected and dimensioned in the new Franklin Electric Pump Selector software.

The Franklin Electric Pump Selector allows to make selections and generates detailed data sheets for your pumping systems.

You can access the tool on our website or directly on fele-selector.com.

Watch our tutorial video about the new Franklin Electric Pump Selector software on our YouTube channel: [Franklin Electric EMENA Water - YouTube](https://www.youtube.com/channel/UC...)

Don't hesitate to contact your Franklin Electric contact.
