## New GPM Booster sets with FDS – Franklin Digital System

We are pleased to introduce the new **GPM/FDS booster sets series**, designed for residential applications. The GPM/FDS systems consist of two horizontal **EH series** multistage pumps with **single-phase power supply**, installed in parallel and equipped with the advanced **FDS - Franklin Digital System** control device. This cutting-edge technology enables precise regulation and reduction of both starting and output pressure, ensuring a stable and constant water flow.

### KEY FEATURES

- ✓ **Base** with black protective coating
- ✓ **FDS system** featuring a digital display, electronic start pressure adjustment, and a communication module for automatic pump alternation
- ✓ **Discharge ball valves** directly connected to the FDS system
- ✓ **Suction ball valves** for optimal flow management
- ✓ **Galvanized steel manifolds** for enhanced durability and resistance
- ✓ **Control and protection panel**

Models available for immediate delivery:

Models	Code
GPM02-EH3/05I007M5E0/FDS	74103051FDS
GPM02-EH3/07I011M5E0/FDS	74103071FDS
GPM02-EH5/05I011M5E0/FDS	74105051FDS
GPM02-EH5/07I015M5E0/FDS	74105071FDS

Additional models are available upon request.
