

# NEW SELF-PRIMING HORIZONTAL MULTISTAGE PUMPS – MHp Series

## New model designed to ensure high performance in every application

Franklin Electric expands its horizontal multistage pump portfolio with the new MHp Series, self-priming pumps engineered to deliver reliable performance even in the most demanding operating conditions.

Designed with an innovative priming system, the MHp Series ensures fast start-up, continuous operation, and reduced downtime across a wide range of industrial and agricultural applications.

Model		3	5
Rated flow [m <sup>3</sup> /h]		3	5
Flow range [m <sup>3</sup> /h]		1,5 - 4	2 - 7
Head [m]		up to 82	
Maximum liquid temperature [°C]	Single-phase	55 °C	
	Three-phase	85 °C	
Max. N hydraulic		45,5	56,8
Maximum working pressure [bar]		10	
Material versions		I (AISI 304)	
Hydraulic connections (dimensions)	Rp (inlet - outlet) - Standard	1" x 1"	

### Features and benefits

- ✔ **MECHANICAL SEAL SiC/SiC/EPDM**  
 Outstanding strength and durability, engineered even for the most demanding conditions
- ✔ **PRIMING CAPACITY IN ANY SITUATION**  
 Smart design due to the self-priming intermediate stage which moves air bubbles outside
- ✔ **SUITABLE FOR INDUSTRIAL APPLICATION**  
 HVAC, fertigation, cooling systems, pressure boosting
- ✔ **HIGH PROTECTION OF MECHANICAL SEAL**  
 Seal housing disc with deflector which protects mechanical seal from air bubbles
- ✔ **REDUCED RISK OF DOWNTIME**  
 Thanks to the new priming system
